## Introducing the Healthcare Blue Book

The Healthcare Blue Book is a free resource provided to all employees as part of their benefits plan. The Blue Book will help you search for prices on thousands of healthcare services so you can get the best value for your out of pocket healthcare costs.

Prices can vary a lot depending on which provider you choose and where you receive treatment

Use the Healthcare Blue Book to understand how much you should pay – before you receive treatment

With out of pocket costs increasing for most employees, it is more important than ever for consumers to know how much they should pay for services. Costs can vary a lot even when using in-network providers. Use the Blue Book to look up prices for services you need and then check with your provider on their fees before treatment.

The Healthcare Blue Book has fair prices for thousands of services from common doctor's visits to surgeries, dental work, imaging studies and much more.

The Blue Book also has a wide range of information on how to talk to your provider about the right treatment for you and how to use your provider network to find fair prices.

The Healthcare Blue Book is easy to use – just visit [www.healthcarebluebook.com](http://www.healthcarebluebook.com) and begin searching for fair prices.
