Transition of Care/ Continuity of Care

Overview

Transition of Care gives new UnitedHealthcare members the option to request extended coverage from their current, out-of-network health care professional at network rates for a limited time due to a specific medical condition until the safe transfer to a network health care professional can be arranged. Examples of covered medical conditions can be found at the end of this page. You must apply for transition of care no later than 30 days after the date your UnitedHealthcare coverage begins using the application beginning on page 4.

Continuity of Care gives UnitedHealthcare members the option to request extended care from their current health care professional if he or she is no longer working with their health plan and is now considered out-of-network. Members with medical reasons preventing an immediate transfer to a network health care professional may request extended coverage for services at network rates for specific medical conditions for a defined period of time. Examples of covered medical conditions can be found on page 2 of this document. If your health care professional is leaving the UnitedHealthcare network, you must apply for continuity of care within 30 days of the health care professional's termination date using the application beginning on page 4.

How Transition of Care/Continuity of Care Works:

You must already be under active and current treatment (see definition below) by the identified non-contracted health care professional for the condition identified on the Transition of Care/Continuity of Care Application below.

- ▶ Your request will be evaluated based on applicable state law and accreditation standards.
- ▶ If your request is approved for the medical condition(s) listed in your application(s), you will receive the network level of coverage for treatment of the specific condition(s) by the health care professional for a defined time frame, as determined by UnitedHealthcare. All other services or supplies must be provided by a network health care professional for you to receive network coverage levels. If your plan includes out-of-network coverage and you choose to continue receiving out-of-network care beyond the timeframe approved by UnitedHealthcare, you must follow your plan's out-of-network requirements, including any prior authorization requirements.
- ▶ The availability of Transition of Care/Continuity of Care coverage does not guarantee that a treatment is medically necessary or is covered by your plan benefits. Depending on the actual request, a medical necessity determination and formal prior authorization may still be required in order for a service to be covered.

Examples of medical conditions that may qualify for Transition of Care/Continuity of Care includes, but is not limited to:

- ▶ Pregnancy (trimester determined by state requirements) through six weeks postdelivery.
 - Transition of Care for the mother does not apply to the newborn. If the care provider or facility is out-of-network for the newborn, please submit a network gap request for services for the newborn by calling the number on your member ID card.
- ▶ Newly diagnosed or relapsed cancer and currently receiving chemotherapy, radiation therapy or reconstruction.
- ▶ Transplant candidates or transplant recipients in need of ongoing care due to complications associated with a transplant.
- ▶ Recent major surgeries in the acute phase and follow-up period (generally six to eight weeks after surgery).
- ▶ Serious acute conditions in active treatment such as heart attacks or strokes.
- ▶ Other serious chronic conditions that require active treatment.

Examples of conditions that do not qualify for transition of care/continuity of care include:

- ▶ Routine exams, vaccinations and health assessments.
- ▶ Chronic conditions such as diabetes, arthritis, allergies, asthma, kidney disease and hypertension that are stable.
- ▶ Minor illnesses such as colds, sore throats and ear infections.
- ▶ Elective scheduled surgeries (except as required by state law).

Frequently Asked Questions:

- Q1.** If my application is approved, how long will I have to transition to a new network health care professional?
- A.** If UnitedHealthcare determines that transitioning to a participating health care professional is not recommended or safe for the conditions that qualify for Transition of Care/Continuity of Care, services by the approved out-of-network health care professional will be authorized at the network level of benefits for a specified period of time or until care has been completed or transitioned to a participating health care professional, whichever comes first. You must apply for Transition of Care/Continuity of Care within 30 days of the effective date of coverage or within 30 days of the care provider's termination date, or you will not be eligible for the transition of care/continuity of care service.
- Q2.** If I am approved for Transition of Care/Continuity of Care for one medical condition, can I receive network coverage for a non-related condition?
- A.** No. Network coverage levels provided as part of Transition of Care/Continuity of Care are for the specific medical conditions only and cannot be applied to another condition. If you are seeking transition of care/continuity of care coverage for more than one medical condition, you should complete a Transition of Care/Continuity of Care Application for each specific condition within 30 days after your coverage becomes effective or your health care professional leaves the UnitedHealthcare network.

Definitions:

- **Transition of Care:** Gives new UnitedHealthcare members the option to request extended coverage from their current, out-of-network health care professional at network rates for a limited time due to a specific medical condition, (see examples below) until the safe transfer to a network health care professional can be arranged.
- **Continuity of Care:** Gives UnitedHealthcare members the option to request extended care from their current health care professional if he or she is no longer working with their health plan and is now considered out-of-network.
- **Network:** The facilities, providers and suppliers your health plan has contracted with to provide health care services.
- **Out-of-Network:** Services provided by a non-participating provider.
- **Pre-Authorization:** An assessment for coverage under your health plan before you can get access to medicine or services.
- **Active Course of Treatment:** An active course of treatment typically involves regular visits with the practitioner to monitor the status of an illness or disorder, provide direct treatment, prescribe medication or other treatment or modify a treatment plan. Discontinuing an active course of treatment could cause a recurrence or worsening of the condition under treatment and interfere with recovery. Generally an active course of treatment is defined as within the last 30 days, but is evaluated on a case by case basis.

The above-named patient is a UnitedHealthcare member. We understand you are not, or soon will not be, a participating provider in the UnitedHealthcare network. The member has asked that for a defined period of time we treat claims as network under the member's benefit plan for the covered services you provide as a non-participating provider. This is because of a qualifying condition. If we approve this request, you agree (1) to provide the covered service, including any follow-up care covered under the member's plan, and (2) if applicable, the terms and conditions of your participation agreement will continue to apply to the covered service, including any follow-up care covered under the member's plan. Please note the following:

- If applicable, payment under your participation agreement, together with any copayment, deductible or coinsurance for which the member is responsible under the plan is payment in full for the covered service and you will not seek to recover, and will not accept any payment from the member, UnitedHealthcare, or any payer or anyone acting on their behalf, in excess of payment in full, regardless of whether such amount is less than your billed or customary charge.
- Upon request, you will share information regarding the member's treatment with us.
- If applicable, you will make referrals for services including laboratory services, to network providers in accordance with the terms of your participation agreement.
